1. Business Context Diagram

Requirement Scope Area	Description
GlamUp! App	A mobile/web app to find nearby beauty professionals specializing in nails, lashes and makeup, view their work, book according to price and schedule, and pay.
Customer Features	Search by service/location, view portfolios & prices, book appointments, pay securely, leave reviews.
Beauty Professional Features	Professionals create profiles, upload photos, set services/ prices/ availability, get bookings, manage schedule, receive payouts.
Payments	Safe online payment method including collection of non-refundable booking fee; receipts for customers; payouts to professionals.
Reviews	Ratings & reviews after appointments to build trust and reputation.
Geolocation	Display nearby professionals and travel radius to make finding/bookings easy.
Admin Tools	Basic activity monitoring through statistics board, and simple UI to view and respond to disputes.

HIGH LEVEL REQUIREMENTS **GlamUp! Online Beauty Services App**

External Entity	Description
Customers	Individuals who want beauty services such as, nail, lash and makeup, at affordable prices and in flexible schedules.
Nail Artists	Freelance or small business-owning nail professionals who offer services such as nail art design and manicure, and want to display and advertise their work on one platform
Lash Technicians	Freelance or small business-owning lash professionals who offer services such as lash extensions and curling, and want to market their work on a singular platform
Makeup Artists	Freelance or small business-owning beauty professionals who offer regular, event-based and customizable makeup services, and wish to showcase their work at desirable prices on an easily accessible platform.
Payment Gateway	Third-party system that processes cards and transfers payouts in a secure and transparent manner to avoid payment conflict.
Reviews Community	The user community rates and reviews feature to allow customers to provide feedback on the beauty services received.
Maps/Geolocation	Feature that allows customers to discover nearby professionals and the estimated distance/travel information.

Information Flows	Description
Search & Filter	Customers view profiles, prices, photo galleries, and availability of beauty professionals by searching and filtering with their customized preferences.
Booking & Scheduling	Customers request a time or select a timeframe from a list of given timeslots; beauty professionals accept; the app confirms and updates calendars on the business owner's end.
Messages & Notifications	The app sends confirmations, reminders, and updates to both customers and beauty professions about recently booked appointments, upcoming appointments and cancelled appointments, along with private message notifications to and from both customers and professionals.
Payments & Payouts	Customers pay in-app via debit/credit cards; payment gateway confirms; beauty professionals receive payouts.
Reviews & Ratings	After service, customers leave ratings/reviews; the app displays them on profiles for other customers and the business owners themselves to view.
Location Data	The app uses geolocation to show nearby professionals and travel radius.
